Relative strength vs SPY

AAPL · Dummy · Mock Data · 3 of 15

Done

RELATIVE STRENGTH

0.5%

Latest

0.0%

SPY

Tap the chart bars to inspect earlier points without leaving the stock metric sheet.

What stands out now

3 OF 15

AAPL is outperforming SPY over the selected window.

EFFECT

Supports the idea that selling pressure is easing.

WHY IT MATTERS

Improving relative strength often appears before broader confidence returns.

RECIPE: NO ACTIVE RECIPE CONDITION IS CURRENTLY MAPPED TO THIS PARAMETER.

Sample data is present. Mark entries and entries are for evaluating the app.

New Journal Entry
